

FOUTZITZAKIS DIMITRIOS

SENIOR PROCESS AUTOMATION
ENGINEER

As a dedicated RPA developer with a strong interest in intelligent automation, I aim to leverage my technical expertise, creative problem-solving, and passion for innovation to contribute to cutting-edge projects in RPA and intelligent automation. I'm committed to collaborating with cross-functional teams to design, develop, and implement high-quality solutions that address real-world challenges. With a solid RPA foundation and a drive to deepen my knowledge of intelligent automation, I'm eager to stay updated on industry trends and deliver exceptional results in automating and enhancing business processes
